DECLARED CONTENT	% w/w
Total nitrogen (N)	15.0
Nitric nitrogen (N)	6.0
Ammoniacal nitrogen (N)	2.5
Ureic nitrogen (N)	6.5
Phosphorus pentoxide (P ₂ O ₅) water soluble	5.0
Phosphorus pentoxide (P ₂ O ₅) soluble in neutral ammonium citrate and water soluble	5.0
Potassium oxide (K ₂ O) water soluble	30.0
Magnesium oxide (MgO) water soluble	2.0
Boron (B) water soluble	0.08
Copper (Cu) water soluble and chelated by EDTA	0.03
Iron (Fe) water soluble and chelated by EDTA	0.02
Manganese (Mn) water soluble and chelated by EDTA	0.07
Molybdenum (Mo) water soluble	0.003
Zinc (Zn) water soluble and chelated by EDTA	0.05
Dicyandiamide inhibitor (DCD)	0.3

*pH range guaranteeing acceptable stability
of the chelated fraction: pH between 3 and 10*

CHARACTERISTICS

Mineral fertilizer rich in potassium with nitrogen, phosphorus, and the main micronutrients, especially recommended for the fruit development stages. Its raw materials are easily assimilated and highly soluble, as well as being a low chloride product. This formula has been incorporated a nitrification inhibitor, causing greater use of nitrogen. Recommended for both herbaceous and woody crops in soil application by irrigation.

INDICATION OF CROPS, DOSES AND RECOMMENDED TERMS OF USE

It is recommended for irrigation at the doses indicated below:

APPLICATION	DOSE	OBSERVATIONS
Irrigation	20-40 kg/ha	Depending on the type of crop and phenological status.

COMPATIBILITY

There were not detected any case of incompatibility with pesticides. It is not recommended to mix with products that contain calcium. In case of doubt make a test.

STORAGE INSTRUCTIONS CONCERNING THE TEMPERATURE AND THE PREVENTION OF ACCIDENTS

Keep the product in a place away from moisture and sun exposure. Store the container tightly closed and protected after use. See MSDS.

PRECAUTIONARY STATEMENTS

P102: Keep out of reach of children.

P270: Do not eat, drink, or smoke when using this product.
